Subject: STAKEHOLDER CONSULTATIONS ON PROPOSAL FOR
REGULATORY REFORM OF INDUSTRIAL
NANOMATERIALS IN AUSTRALIA [No Protective Marking]

History:

DOCUMENT NOT YET CLASSIFIED

Hi Nicola,

I have a very young family and consider that families, being consumers, are the most important stakeholders to be considered by the regulator. However I would not be able to attend any stakeholder consultations, but ask that you pass on my plea for my right as a consumer to have nano-materials/particles listed on all product labels, and for their safety to be tested and approved by the regulator.

Kind regards

Jenny
