APPLICANTS FOR TRIS(2,3-DIBROMOPROPYL) PHOSPHATE PEC ASSESSMENT

Following the declaration of TBPP on July 6 2004 as a Priority Existing Chemical, only one company applied for assessment (see below). No data on import volumes or uses of TBPP in Australia were provided, as the chemical has not been used or imported into Australia since 2001. The applicant provided an overseas MSDS. In accordance with the *Industrial Chemicals (Notification and Assessment) Act 1989*, NICNAS provided the applicant with a draft copy of the report for comments during the statutory consultation phase of the assessment.
