AUSTRALIAN INVENTORY OF CHEMICAL SUBSTANCES

14	NOTICE OF CHEMICALS ELIGIBLE FOR LISTING ON THE AUSTRALIAN INVENTORY OF CHEMICAL SUBSTANCES FIVE YEARS AFTER ISSUING OF ASSESSMENT CERTIFICATES	62
15	NOTICE OF CHEMICALS ELIGIBLE FOR IMMEDIATE LISTING ON THE AUSTRALIAN INVENTORY OF CHEMICAL SUBSTANCES AFTER ISSUING OF ASSESSMENT CERTIFICATES	64

1 OCTABROMOBIPHENYL AND DECABROMOBIPHENYL AS PRIORITY EXISTING CHEMICALS (PEC)

Octabromobiphenyl (CAS No. 27858-07-7) and decabromobiphenyl (CAS No. 13654-09-6) were declared priority existing chemicals (PECs) for full assessment on 6 July 2004. The declaration notice can be accessed at:

http://www.nicnas.gov.au/publications/gazette/pdf/2004jul_whole.pdf#page=66

In accordance with section 55 of the *Industrial Chemicals (Notification and Assessment) Act 1989* (the Act) all those who wish to manufacture or import octabromobiphenyl or decabromobiphenyl during the period that these chemicals are PECs **must apply** in writing using the PEC application form. To date, the Director (NICNAS) has not received any application for the assessment of these chemicals.

If no applications are received for these PECs, as per section 63 of the Act, where:

- (a) a chemical has been a priority existing chemical for at least 12 months; and
- (b) an application for the assessment of the chemical has not been received; and
- (c) the Director has not caused the chemical to be assessed under subsection 57(2);

the Director must remove the particulars of the chemical from the Inventory.

If octabromobiphenyl and decabromobiphenyl are removed from the Australian Inventory of Chemical Substances (AICS) future import or manufacture of these chemicals will require notification and assessment as new chemicals.

For further information contact Dr Janith Wickramaratna (ph (02) 8577 8846 or fax (02) 8577 8888 or email: janith.wickramaratna@nicnas.gov.au).

2 LOW REGULATORY CONCERN CHEMICALS (LRCC) REFORM – NEW FEES

New *Industrial Chemicals (Notification and Assessment) Amendment Regulations* came into effect on the 23 December 2004. These Regulations set new fees for a number of reforms introduced under the *Industrial Chemicals (Notification and Assessment) Amendment (Low Regulatory Concern Chemicals) Act 2004* ('the LRCC Amendment Act').

The following notice refers to the NICNAS Handbook for Notifiers as a source of further information. Please note that this document will be updated early in 2005 but at present does not include the new fee information.

1. Fee for LVC and CEC Permit Renewals

The LRCC Amendment Act allows the renewal of commercial evaluation permits and low volume permits without the need for a re-assessment. These new provisions are part of section 21B and section 21R of the *Industrial Chemicals (Notification and Assessment) Act 1989* (the Act) respectively.

Section 110 of the Act states that regulations may prescribe fees in respect of:

“(cb) an application under section 21B for a renewal of a commercial evaluation permit.”

“(cd) an application under section 21R for a renewal of a low volume permit.”

The fee for each of these administrative renewals (prescribed in Regulation 13- Schedule 2 of the *Industrial Chemicals (Notifications and Assessment) Regulations* (the Regulations)) is \$588.00.

For more information on permit renewals, see Chapter 6.6 of the NICNAS Handbook for Notifiers on the NICNAS website at www.nicnas.gov.au

2. Fee for Optional Early Listing on the AICS

The LRCC Amendment Act amended the Act to allow for new industrial chemicals to be included in the non-confidential section of the Australian Inventory of Chemical Substances (AICS) once an assessment certificate is in force for the chemical. Prior to this amendment, chemicals could only be included in the non-confidential section of the AICS 5 years after an assessment certificate was issued. Under new section 13B of the Act, assessment certificate holders now have the option to include the chemical in the AICS immediately. This will be free of charge for 28 days after the giving of the certificate; however there will be a charge for those who apply for inclusion of the chemical in the AICS after this 28 day period.

Paragraph 13B(1)(d) of the Act provides for fees to be prescribed under section 110 of the Act for this purpose. Paragraph 110(1)(aa) of the Act provides that regulations may prescribe fees in respect of an application under section 13B that is made after 28 days of the giving of the assessment certificate. The amendment to the Regulations prescribes a new fee for this purpose of \$588.00.

For more information on AICS, see Chapter 1.4 of the NICNAS Handbook for Notifiers.

3. Fee for Self-Assessed Assessment Certificates.

The LRCC Amendment Act also introduced self-assessed assessment certificates for Polymers of Low Concern (PLCs), non-hazardous chemicals and other chemicals prescribed by the Regulations, under new section 23A of the Act. At this stage the National Industrial Chemicals Notification and Assessment Scheme (NICNAS) is in a position to implement self-assessed assessment certificates for Polymers of Low Concern and other non-hazardous chemicals.

Paragraph 110(1)(ea) of the Act provides that regulations may prescribe fees in respect of applications that are made under section 23A for self-assessed assessment certificates. New fees have been prescribed in the Regulations for self-assessed assessment certificate applications that are made in respect of the following:

- PLCs. This fee is \$2,266
- non-hazardous chemicals that are synthetic polymers with a number average molecular weight that is equal to or greater than 1,000 (other than a non-hazardous chemical to which paragraph (a) of Regulation 13(2A) applies). The fee is \$6,730.
- non-hazardous chemicals (other than a non-hazardous chemical to which paragraph (a) or (b) of Regulation 13(2A) applies). The fee is \$8,035.

Please note that, for self-assessment applications for non-hazardous chemicals, the onus is on the applicant to demonstrate the non-hazardous nature of the chemical. Guidance and more information can be found in Chapter 5.6.3 of the NICNAS Handbook for Notifiers and the Special Chemical Gazette of 16 August 04.

For more information on PLC self-assessment certificates, see Chapters 5.3.1 of the NICNAS Handbook for Notifiers.

3 REGISTER OF INDUSTRIAL CHEMICAL INTRODUCERS FOR THE REGISTRATION YEAR 2004 / 2005 AS AT 21 DECEMBER 2004

The Register of Industrial Chemical Introducers contains a list of importers and/or manufacturers of industrial chemicals registered with NICNAS. This list provides NICNAS with current details of its client base, enabling it to keep its industry clients fully informed of their obligations under the Act and any changes as they take place.

The list can also be viewed at <http://www.nicnas.gov.au/obligations/registration/register.asp>
